To Whom It May Concern:

In 22 years of ministry I have conducted 7 capital campaigns, overseen three major church renovations, one church addition, one new church construction, worked with nationally known architects, and with innumerable contractors and subcontractors. In all of my experience, I have never enjoyed working with a company as much as I have enjoyed working with JHOOKER Construction.

John was knowledgeable in all aspects of our project, responsive to our needs and worries, professional in his dealings with subcontractors, and persistent in dealing with the numerous details and headaches that inevitably arose. He is, in my estimation, the most considerate and thorough contractor I have ever known.

Our project started 6 weeks late due to permitting problems and finished on time and under budget, even with numerous changes along the way. John was careful, professional, pleasant, and above all, forthright in his dealings with our congregation. I cannot recommend JHOOKER highly enough. Simply put, you need to hire this man and his firm for your project.
